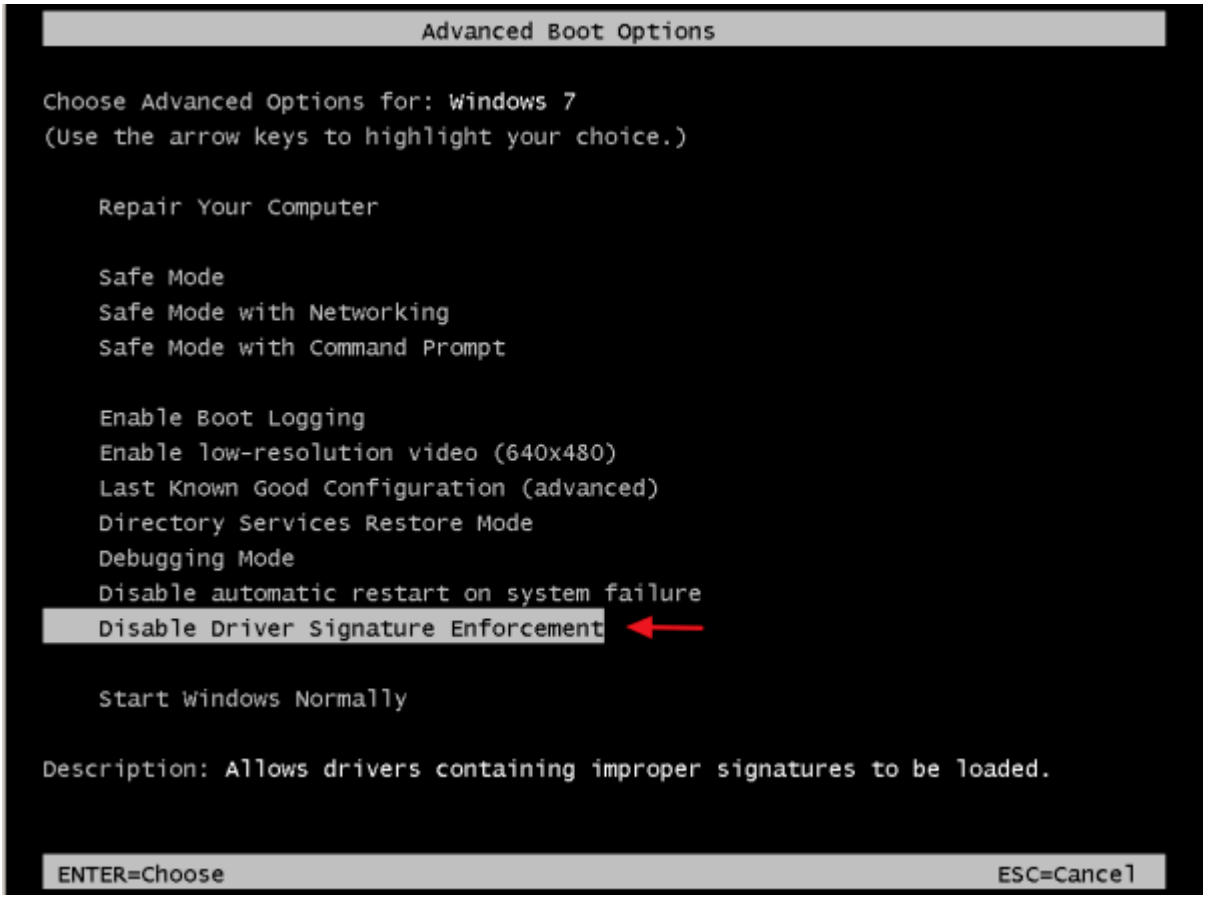
How to fix: "Windows cannot verify the digital signature for this file" error in Windows 7 and Vista.

Windows 7 & Vista

To enter in Advanced Options menu in Windows 7 and Vista OS:


1. Close all programs and **reboot** your computer.
2. Press the "**F8**" key as your computer is booting up, before the appearance of the Windows logo.
3. When the "**Windows Advanced Options Menu**" appears on your screen, use your keyboard arrow keys to highlight the "**Disable Driver Signature Enforcement**" option and then press "**ENTER**".
